

KILLED FOR THEIR ORGANS

SHOCKING FACTS ABOUT SECRET CONCENTRATION CAMPS IN CHINA

SUJIATUN - THE SECRET DEATH CAMP

4000+ people have had their organs harvested against their will

Donors were live and healthy Falun Gong practitioners who were detained in the camp in Sujiatun

Remains of bodies and all evidence of the crimes were destroyed in on-site crematorium

No Falun Gong practitioner has ever got out of Sujiatun, dead or alive

Death camp in Sujiatun has been removing organs from living Falun Gong practitioners before throwing their bodies into an on-site crematorium.

Such crimes have been taking place in many different concentration camps throughout China in 2001-2003. However, the capacities of these camps didn't allow to detain so many people.

Therefore the Chinese Communist Party found a secret concentration camp created specifically for detention Falun Gong practitioners in Sujiatun region. Due to the eye-witnesses' testimonies no one has come out alive from this concentration camp to this date. Organs are taken from practitioners and then are being sold for profit.

WITNESS TESTIMONIES

„Organs harvested from live bodies are worth far more than organs taken from dead bodies. Many Falun Gong practitioners were still alive when their organs were taken. After their organs were cut out, some of these people were thrown directly into the crematorium to be burnt, thus leaving no evidence.“

(from the statement of the Lianonig Hospital employee)

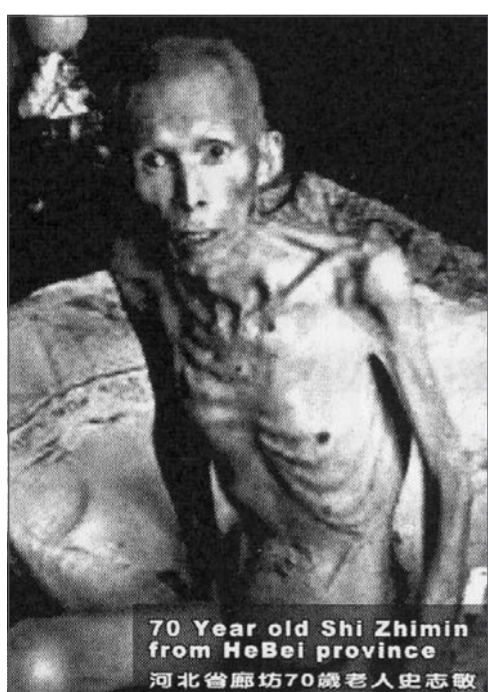

„Most prisons and labor camps have detainees going in and out, and eventually information will be brought out. But this Sujiatun Concentration Camp has not had anyone come out yet; A steel gate in Sujiatun remains closed all the time.“

(the Japanese investigative reporter)

Wang Bin, tortured to death in September 2000 for practising Falun Gong

OVER 36 SUCH CONCENTRATION CAMPS ACROSS CHINA!

**Sujiatun
- Auschwitz in China**

„...The Chinese Communist Party has openly declared Falun Gong to be the „class enemies,“ turning Falun Gong practitioners into the target of its most severe suppression. In other words, The so-called hospitals in Sujiatun are but one of 36 similar concentration camps all over China...“

(Veteran military doctor from Shen-yang)

SILENT CONSENT OF THE CHINESE REGIME

“... The profit from the organ harvesting is just enormous. There are not only the promoters of the secret camp but also the officials of the Medical Department of the Chinese Communist Party among the people working there. From the government officials and doctors to organs sellers, all of them have a big profit from it..“
